

Mr. Lee is a licensed general contractor in the state of California and an International Code Council (ICC) certified Residential Combination Inspector with certifications in all four disciplines in residential construction; Building, Electrical, Mechanical, and Plumbing.

He has extensive experience working in commercial and residential construction. He has been involved in hundreds of residential repair, remodel and ad-on jobs as well as commercial property tenant-improvement projects including the construction and/or remodel of gas stations into mini market stores for Arco, Mobil, Shell, Texaco, and Thrifty Corporations.

He is an educational speaker and has spoken at a number of CREIA chapter meetings and ASHI and CREIA annual & semi-annual conferences. He was the principal and Program Producer for the CREIA Advanced Mentoring Program (CAMP) and an educational speaker on the CAMP DVD video set.
